

PRACTICE PROFILE

NEYLAN.COM.AU

OVERVIEW

__ A Queensland-based practice of professional consulting architects

__ Operational since 1979 throughout Australia's eastern seaboard and south-east Asia

__ A considerable history of built work covering a broad spectrum of project types

__ Committed to a strong innovative and sensitive design ethic with a realistic and commercially-oriented approach

__ Our focus is on the uniqueness of each client's needs, gaining a thorough understanding of these requirements while continuously testing our design proposals to ensure best-fit solutions

__ We see ourselves as design specialists. Our expertise is based on a holistic approach to design problems rather than adopting a formulaic response which limits the possibilities for unique solutions to evolve through collaborative interaction with our clients
